

Trustee Tidbits – May, 2017

Spring is here, I think! There will be a cleanup soon around the church, so if you are interested in helping, please call Bill Pickering. We have all of the normal things to do as well as getting and spreading new mulch. For the Palmer parsonage, we purchased a new lawnmower. Pastor John likes to cut his own grass and the old one there finally gave out. Outside painting will begin in two weeks, so drive by and check it out. At the Maidstone home, a new garage door will be installed shortly, and also a new entry door from the outside into the garage. There is always something.

Knowing that a few of our members bike to church on occasion, the group decided to purchase a bike rack! Ron Picard is trying to decide where to locate it, so if you have a suggestion, please let him know. We also purchased two new chairs for the Garden Cafe. They will not be delivered until the end of the summer.

Upon entering the parking lot, you may notice that we finally have the new light-post installed and working! An older one to match was moved from the back of the parking lot and the new one will be put there.

We received an official recognition from Plymouth Township about our leadership in safety as well as being one of 3 buildings open during the extended power outage. Thanks to all who helped or were ready to help make this happen.

We have one, possibly two recipients for college scholarships, thanks to the Roe fund. Our committee will meet shortly to evaluate their applications. We will let you know soon!

We continue to represent you, working to keep our buildings ready for any mission work that we need to do as the hands of God.

Joy Coyle, chairperson
